Santa Claus, Santa Claus – sing to "Jingle Bells"
Lyrics: Pete "Uncle Zac" Zaccagnino
Sheet music: provided by Linda Carlucci

C
I heard a reindeer hoof,
               F
Then Santa, dressed in red
                G
Came crashing through the roof,
          C
and landed in my bed.
 C   F
I thought it was a dream, but quickly I did wake,
                  G   C
As soon as I heard Santa scream, "I want a piece of cake!"

Chorus

        G7/A7 C/D
        Oh!   Santa Claus, Santa Claus, you are much too fat;
        F/G   C/D   G7/A7   G7/A7
        I was sleeping peaceful-ly   but now my bed is flat.
        G7/A7 C/D
        Oh!   Santa Claus, Santa Claus, how much do you weight?
        F/G   C/D   G7/A7   C/D
        I'm glad I'm not a rein-deer that has   to pull your sleigh!

C   F
He got up off the floor and said, "How do you do?"
                   G7   C
I said, "My back is sore, my head is black and blue."
                                        F
"So sorry!", he replied, and then he asked my name.
                 G7   C
He offered me a ride, I said, "No, thank you just the same!"

Chorus

C   F
I heard a "Ho, ho, ho". The sleigh was in the sky,
                 G7   C
But it was moving slow, and wasn't very high.
                                   F
It wobbled in the air. I hoped it wouldn't fall.
                 G7   C A7
Said Santa chewing cookies, "Merry Christmas, one and all!"
Chorus – modulate - see above in green
